INSTITUTE
Leveling the Field for All Learners

Aligned to stimulus funding priorities

Invest in Expanding Instructional Equity and Improving Student Outcomes

Emerging from the pandemic, our schools are facing intense pressure to address unfinished learning as well as the trauma and disengagement experienced by many students this year. Highlander Institute offers a research-based approach that integrates critical social, emotional, and academic supports. Partner with us to fundamentally improve instruction, engagement, and student success.

Our delivery models are designed to flexibly fit your local strengths and needs:

PLC FACILITATION

Collaborate and share professional learning

Gather in facilitated learning communities to discuss how to implement culturally responsive and sustaining approaches. Customize new strategies, collect evidence of impact, and reflect on next steps.

1-ON-1 TEACHER COACHING

Deepen practice and accelerate growth

Develop student thinking skills and persistence through classroom coaching cycles centered on reflection and feedback. Receive individualized thought partnership and share emerging best practices school-wide.

1-ON-1 LEADER COACHING

Tackle barriers and nurture inclusive change

Receive personalized, structured support, focused on managing sustainable change, instructional equity, and family engagement. Grow in your role as consensus-builder, communicator, and problem-solver.

"During this very challenging year, I am so proud of the work that my school was able to complete with teachers and the community. If we can have this great momentum during a pandemic, the sky's the limit in moving forward. I am just bursting with gratefulness for the entire Highlander collaboration."
